ESTIMATES FOR CIVIL SERVICES
AND
REVENUE DEPARTMENTS,
1908-9.

MEMORANDUM BY THE FINANCIAL SECRETARY TO THE TREASURY.

I.—CIVIL SERVICES.

1. The net total of the Estimates for Civil Services for 1908-9 is 30,496,947*l*. The net total of the original Estimates for 1907-8 was 30,107,034*l*. The increase is therefore 389,913*l*.

2. In the following Abstract and throughout the detailed Estimates comparison is made, according to the usual practice, with the total grants made for the service of the year 1907-8 in the Session of 1907. Thus the figures for 1907-8 comprise, in addition to the original Estimates for the year, Supplementary Estimates to the amount of 716,029*l*. which were presented in the summer of 1907. The result (after allowing for the transfer, for purposes of comparison, of the sum of 6,500*l*. to the vote for the Post Office), is a net total for 1907-8 of 30,816,563*l*.; and on this basis of comparison the Civil Service Estimates for 1908-9 show a decrease of 319,616*l*.

3. This decrease mainly arises, as the result of the method of comparison explained above, under the heads of Board of Education, Colonial Services, and Miscellaneous Expenses.

4. The number of Votes is 105, being one more than the original number for 1907-8, an additional Vote appearing in Class III. for the Office of the Public Trustee.

5. Increased provision has been made for the salaries of Second Division Clerks throughout the Public Service, in pursuance of the Order in Council of the 21st December, 1907, which authorised an improved scale of pay for Clerks of that Division.

CLASS I.

6. The total sum required for Public Works and Buildings is 3,029,468*l*., being an increase of 160,636*l*. over the amount voted (including a Supplementary Estimate of 5,700*l*. for Houses of Parliament Buildings) in the Session of 1907. Six of the Votes included in this Class show decreases, the amount of which, however, is more than counterbalanced by large increases under some of the remaining heads.

7. The increase of 7,600*l*. for Art and Science Buildings is due chiefly to expenditure on the heating and lighting of the new Victoria and Albert Museum, and on the supply of cases, library fittings, etc. for that Museum.

8. The Estimate for Revenue Buildings shows the large increase of 86,000*l*., of which about half is attributable to the cost of important Post Office works which were in progress in 1907-8, while 10,200*l*. is for maintenance of Post Offices, about 7,000*l*. is on account of the increased cost of fuel, and 5,900*l*. is for rents of Inland Revenue and Customs Offices.

9. Under the Public Buildings Vote there is an increase of 59,900*l*. The more important new works for which provision is made comprise the official residences of the First Lord of the Admiralty and the Senior Naval Lord, the extension of the

National Gallery, additions to the Royal Courts of Justice, and the extension of the Edinburgh Law Courts. Amongst other items contributing to the net increase may be mentioned the annuities under the Public Buildings Expenses Acts, which amount to 8,465*l.* more than in 1907-8; maintenance and repairs (5,060*l.*); increased cost of fuel (4,000*l.*); electric light for the new Public Offices, and general improvements in lighting (3,600*l.*); and furniture and removal expenses in connection with the new Westminster Offices and the Duke of York's School (18,000*l.*). On the other hand the charge for rents, care-takers, etc., is reduced by 9,000*l.*

10. The sum of 2,100*l.* for a memorial of the late Marquess of Salisbury is a re-Vote of the provision made in the Estimates of 1907-8 for this work, the fee in respect of which will not become payable until the year 1908-9.

11. Under Surveys of the United Kingdom there is a net decrease of 2,090*l.*, which would have been considerably greater but for the fact that the charge in respect of the military pay of the Royal Engineer Staff employed upon the Ordnance Survey has been transferred to this Vote from Army Votes.

12. In the Estimate for Harbours under the Board of Trade, which exhibits a net increase of 21,100*l.*, provision is made for further instalments of grants in aid of harbours, etc., at Pwllheli, Southwold and Peterhead, and for initial payments on account of similar grants to Craster, Newlyn, Fraserburgh, and Sennen Cove.

13. The Rates Vote shows a continued tendency to rise, the estimated increase (16,300*l.*) for 1908-9 being due, as in past years, in part to the larger amount of Government property in respect of which contributions are made, and in part to additional poundage and increased assessments.

14. Under the head of Public Works and Buildings, Ireland, sums of 7,000*l.* and 4,000*l.* are provided as the first instalments of grants in aid of the Sligo and Fenit Harbours respectively. The Estimate as a whole shows a net increase of 11,430*l.*

CLASS II.

15. The total Estimate under this Class (Salaries and Expenses of Civil Departments) is 2,969,166*l.*, being an increase of 85,134*l.* on the amount voted (including a Supplementary Grant of 2,200*l.* for the expenses of the Colonial Conference) in the Session of 1907. The increase is accounted for under the following principal heads.

16. The Estimate for the Treasury and Subordinate Departments includes for the first time provision (2,370*l.*) for the composition, under the direction of the Imperial Defence Committee, of Histories of the South African and Russo-Japanese Wars.

17. The Home Office Estimate shows a net increase of 16,232*l.*, due mainly to large additions to the staff for the Inspection of Factories and Mines. A sum of 1,000*l.* has also been inserted for the additional office porters, messengers, charwomen, etc., required for the new premises to be occupied by the Department; and the provision for Fees to certifying Surgeons, etc., under the Factory Act (Subhead G) has been increased by 1,500*l.*

18. The increase of 36,685*l.* under Board of Trade is chiefly accounted for by the large additions which have been made to the staff of the Commercial Labour and Statistical Department in connection with the Census of Production; the increase from 2,000*l.* to 7,000*l.* of the remuneration of Commercial Correspondents in British Colonies and Possessions; the cost of the reorganisation of the Patent Office which has followed upon the passing of the Patents and Designs Act, 1907; and the formation of a temporary London Traffic Branch (Subhead AA). The charge for the

work under the Companies Winding Up Act, 1890, has been transferred to this Vote from the Vote for the Bankruptcy Department of the Board of Trade, in accordance with the recommendation contained in the Third Report of the Public Accounts Committee, 1907.

19. The Estimate for the Board of Agriculture and Fisheries shows a net increase of 10,284*l.*, due mainly to the cost of additional staff (Commissioners, Inspectors and Clerks) required for the discharge of the duties imposed upon the Board by the Small Holdings Act and other legislation of last Session.

20. Of the net increase of 8,718*l.* under Local Government Board, 5,240*l.* represents the cost of additions to the Audit Staff of the Department which have been temporarily sanctioned pending a permanent settlement of that establishment.

21. The Estimate for the Mint includes 40,000*l.* to meet the loss on light gold coin withdrawn from circulation. This provision is rendered necessary by the approaching exhaustion of the Coinage Fund for the restoration of light gold coin, and the liability to be incurred after the 1st April, 1908, as regards the restoration of light gold coin in Australia. A sum of 5,000*l.* is also provided in respect of loss on worn bronze coin.

22. The increase of 11,971*l.* under Department of Agriculture and Technical Instruction, Ireland, is mainly due, apart from certain additions to staff and improvements of pay, to the automatic growth of the Grants to Schools of Science and Art, etc. (Subhead H.), and to the increase from 9,000*l.* to 10,000*l.* of the Irish share of the Swine Fever Grant under the Diseases of Animals Act, 1894.

23. Of the net increase of 6,205*l.* under Local Government Board, Ireland, 3,185*l.* represents a grant payable to the Labourers' Cottages Fund, equivalent to the saving effected by the reduction of the salary of the Lord Chancellor of Ireland, under the Supreme Court of Judicature (Ireland) Act, 1907; and the greater part of the remaining increase is for additional staff, to a large extent temporary, for the purposes of the Labourers (Ireland) Act, 1906.

24. Against the foregoing increases may be set the decreases of expenditure shewn in the tabular statement, the principal items being 1,587*l.* and 2,900*l.* under House of Lords and House of Commons Offices respectively, due principally in either case to an anticipated increase in the amount of the fees; a decrease of 6,450*l.* under Colonial Office, the total for 1907-8 having included 8,200*l.* for the Colonial Conference; and a decrease of 12,841*l.* under Stationery and Printing.

CLASS III.

25. The total sum required under the head of Law and Justice is 4,031,785*l.*, being a net increase of 109,359*l.* on the total for 1907-8.

26. The Estimate for the Supreme Court of Judicature includes 20,000*l.* for probable expenses under the Criminal Appeal Act, 1907; and an additional sum of 5,000*l.* is provided under Law Charges for expenses of the Director of Public Prosecutions under the same Act.

27. The Estimate for the Land Registry shows a decrease of 1,063*l.*, as the result of further economies in the working of that Department.

28. An Estimate is presented for the first time (Vote No. 5) of the cost for a complete year* of the Office of Public Trustee, constituted under the Act 6 Edward VII., cap. 55, which came into operation on the 1st January, 1908. The salaries and expenses of the Department, as it stands at present, amount to 6,500*l.*; and the fees,

* A Supplementary Vote for this service for 1907-8 (part of the year) was taken in February, 1908.

which are appropriated in aid of the Vote, are estimated approximately for the year 1908-9 at 4,000*l.* The net sum required is therefore 2,500*l.*

29. The Estimate for Prisons, England and the Colonies, shews a net decrease of 7,260*l.*, attributable to a decline in the number of prisoners to be provided for. Sums of 12,850*l.* and 2,500*l.*, are included for new buildings and alterations at Borstal and Lincoln, respectively, in connexion with the Borstal system of dealing with juvenile-adult delinquents.

30. Under Prisons, Scotland, 2,500*l.* has been provided for the purchase of a site for a new State Inebriate Reformatory; and the Estimate for Prisons, Ireland, embodies certain improvements recently sanctioned in the scales of pay of Prison Officers.

31. The Estimate for the Irish Land Commission shows a net increase of 31,928*l.* mainly attributable to additional staff (of which a large part is temporary) necessary under the Evicted Tenants Act, 1907, and to an increase by 10,000*l.* of the amount required for the Land Purchase Aid Fund (Sub-head G.).

32. The net increase of 33,403*l.* under Royal Irish Constabulary is due in part to the addition of 400 men to the Force in the autumn of 1907, and in part to the continued growth of the pension charge (*see* Memorandum prefixed to the Civil Service Estimates for 1907-8).

CLASS IV.

33. The total provision for Education Science and Art is 17,578,230*l.*, being a net decrease of 128,007*l.* on the amount voted (including Supplementary Grants of 200,000*l.* and 11,000*l.*) in 1907.

34. The Estimate for the Board of Education includes a sum of 200,000*l.* for Special Grants to certain necessitous Local Education Authorities (which in 1906-7 and 1907-8 formed the subject of Supplementary Estimates), and a Grant of 20,000*l.* in aid of the Imperial College of Science and Technology. An additional sum of 7,200*l.* has also been inserted under Sub-head E. for Grants in respect of Secondary Schools in Wales. After providing for these Grants, the Estimate still shows a net decrease of 199,496*l.*, as compared with the total of 1907-8. This decrease, which arises mainly on the Grants in respect of Public Elementary Schools under Sub-head C., is attributable to a falling-off in the number of Scholars in average attendance at Public Elementary Schools, owing to the tendency of Local Education Authorities to exclude or not admit children under five years of age. The 40,000*l.* under Sub-head C. 6 (Special Grants for the building of new Public Elementary Schools) is a re-Vote of the unexpended portion of the 100,000*l.* granted for this purpose in 1907-8.

35. In the Estimate for the British Museum, a sum of 4,445*l.* has been provided for the introduction of a new system of heating and ventilating the Museum.

36. The Estimate for the National Gallery includes a special grant of 12,500*l.* for the purchase of a portrait by Vandyke of the Marchesa Cattaneo.

37. Under the heads of Universities and Colleges provision is made for a grant of 20,000*l.* in aid of the Building Fund of the University College of North Wales.

38. Under Public Education, Scotland, there is an increase of 15,003*l.*, which includes 10,000*l.*, for Special Grants to certain necessitous School Boards, in continuation of the 11,000*l.* for which Supplementary Estimates were taken in the two previous years.

39. The Estimate for Public Education, Ireland, exhibits a net increase of 22,458*l.*, of which 9,400*l.*, is for instruction in Irish.

CLASS V.

40. The total sum required under the head of Foreign and Colonial Services is 1,832,612*l.*, being a decrease of 248,793*l.*, as compared with the amount voted (including Supplementary Grants for Colonial Services of 282,690*l.*) in the Session of 1907.

41. The Estimate for Colonial Services for 1908-9 shows a decrease of 268,578*l.*, if the above-mentioned large Supplementary Grants of 1907 be taken into account. If on the other hand the comparison be made with the original Estimate for 1907-8, the present Estimate shows a net increase of 14,112*l.* The Grant in Aid of Uganda is increased by 10,000*l.*; and provision is made for expenses under the Anglo-French Convention relating to the New Hebrides to the extent of 28,005*l.*, as against 7,000*l.* in 1907-8.

42. Under Diplomatic and Consular Services there is a net increase of 4,428*l.* The Appropriations in Aid of the Vote include for the first time a contribution of 4,000*l.* from the Zanzibar Government in respect of the expenses of the British Court at Zanzibar.

43. Under Vote 3, the Grant in Aid of the Pacific Cable shows an increase of 13,577*l.*, due to the fact that the estimated available balance in the hands of the Pacific Cable Board, to be applied in reduction of the Grant, is only 6,976*l.* for 1908-9, as against 20,355*l.* for the previous year.

44. A grant of 50,000*l.* is again provided in aid of the revenues of Cyprus, in accordance with the arrangement that provision at this rate should be made for three years from 1907-8 inclusive.

CLASS VI.

45. In this Class (Non-Effective and Charitable Services) is included a Vote of 109,713*l.* to make good deficiencies on the income accounts of the funds for Savings Banks and Friendly Societies, which, compared with the Vote for the same purpose in 1907-8, shows a decrease of 36,227*l.* Of this decrease, 24,000*l.* is due to provision having been made for thirteen months' salaries in 1907-8 in the Savings Bank Department in consequence of an alteration in the period of account. There is an increase of 1,622*l.* under Superannuation and Retired Allowances, and a net decrease on the total for the Class of 34,664*l.*

CLASS VII.

46. This Class (Miscellaneous Services) shows a net decrease of 263,281*l.*, as compared with the total of 1907-8, which includes a grant (non-recurrent) of 33,000*l.* in aid of the purchase of a bridge by the Corporation of Waterford; the 200,000*l.* voted in July, 1907, to meet expenses under the Unemployed Workmen Act, 1905; and the 14,439*l.* voted at the same time for Repayments to the Civil Contingencies Fund. There is also a decrease of 14,000*l.* in the amount required in 1908-9 for Temporary Commissions, several important Commissions having come to an end.

47. An estimate for Repayments to the Civil Contingencies Fund will be presented, as usual, later in the Session, if necessary, when the amount to be made good to the Fund has been ascertained.

II.—REVENUE DEPARTMENTS.

48. The net total of the Estimates for the Revenue Departments is 21,645,631*l.* being an increase of 1,013,380*l.* over the total for 1907-8.

49. The Estimate for the Customs shows a net increase of 11,800*l.*, of which nearly one half is due to additions to the Waterguard Staff and the Statistical Office, and the remainder to minor changes and increments of salary.

50. In the case of the Inland Revenue, there is an increase of 54,300*l.*, of which about 30,000*l.* is attributable to the Income Tax legislation of 1907, 8,100*l.* is required for commuted allowances, etc., to Assessors and Collectors of Taxes, and 11,320*l.* is for superannuation.

51. The Estimate for the Post Office shows a net increase of 947,280*l.*, made up as follows :—

Postal Services	-	-	-	-	-	-	721,308 <i>l.</i>
Packet Services	-	-	-	-	-	-	26,000 <i>l.</i>
Telegraph Services	-	-	-	-	-	-	77,199 <i>l.</i>
Telephone Services	-	-	-	-	-	-	122,773 <i>l.</i>
							947,280 <i>l.</i>

52. This increase is attributable in about equal shares (a) to normal growth in pay and numbers of Staff, and (b) to the improved salaries, wages and conditions of service, &c., granted under the Parliamentary Committee Revision, taking effect on 1st January, 1908. The additional cost of this Revision in 1908–9 is estimated at about 475,000*l.*; the ultimate cost, on present numbers of staff, will approach 700,000*l.* a year.

53. In accordance with the recommendations made in a preliminary Report of a Committee appointed by the Postmaster General to consider the various accounts and returns presented to Parliament in connection with the Telegraph and Telephone Services, the Estimate shows, for the first time, the anticipated Vote expenditure on Telephone Services separately from that on Telegraph Services. In this connection, it is necessary to apportion the Maintenance expenditure under Subhead P between the two Services, and the Committee have found that the share proper to Telephones is 46 per cent.—see Subheads Q and P.P. The share of this expenditure proper to Telephones for 1907–8 may be estimated at 44·3 per cent.

54. An Inter-Departmental Committee has reconsidered the apportionment of expenditure common to Postal, Telegraph and Telephone Services, and it is estimated that $20\frac{1}{4}$ per cent. of the total is proper to Telegraphs and $2\frac{3}{4}$ per cent. to Telephones. The percentage for 1907–8 was 23 for Telegraphs (including Telephones), of which $2\frac{1}{2}$ is estimated to have been proper to Telephones.

55. Under Packet Services there is an increase of 47,500*l.*—less 11,520*l.*, the increased contribution towards the cost of the service by the Colonies served—mainly in respect of the Contract for the Peninsular and Oriental Service to Asia and Australasia. The provision for this Service in 1907–8 represented, not one year's subsidy, but the balance due to the Contractors under the retrospective reduction of subsidy conditional on the extension of the Contract to 1912. On the other hand the provision under Canada and China for the Canadian-Pacific Service covers the period to 6th April only, the date of cessation of the Contract. One fourth of the cost of this Service is recovered from the Dominion.

56. The increase under Telegraph Services is mainly due to increments in salaries and wages and to the improved scales of pay, &c. resulting from the Revision referred to above.

57. As regards Telephone Services, the increase is due partly to the growth of the system, partly to the additional expenditure resulting from the Revision referred to above, and partly to an increase of 41,369*l.* in respect of Annuities issued in repayment of loans on Telephone Capital Account.

(2) Vote for Uganda and East Africa Protectorates, and Uganda Railway, merged in Colonial Services Vote, 1905-6. Grant in Aid of British Central Africa transferred from this Vote to the Colonial Services Vote in 1904-5.

(3) A special advance of 400,000*l.* to the Gold Coast in respect of disturbances in Ashanti provided in 1900-1. 1,800,000*l.* Grant in Aid of the revenues of the Transvaal and Orange River Colony, and 250,000*l.* for West Indian Sugar Industry specially included in 1902-3.

(5) Grant in Aid of the Pacific Cable first included in 1902-3.

(8) Increase in 1901-2 and following years owing to the expense of providing funds in South Africa and China. A Vote for this service is required only when the profit and loss account of the Treasury Chest Fund shows a loss on the year's working. The account is made up to 31st March; any loss appearing on the account for 1906-7 will be provided for by Supplementary Estimate in 1907-8.

Funds to meet expenditure in 1908-9 will be provided in accordance with Section 4 of the Railways (Ireland) Act, 1896.

† The difference between the Treasury contribution and the total estimated cost is made up by the sum of 5,297*l*. 10*s*. proceeds of the issue of 5,000*l*. Baronial Stock, and a contribution by the Working Company, viz., the Londonderry and Lough Swilly Railway Company, limited to a maximum sum of 15,000*l*.

* The difference between the Treasury contribution and the total estimated cost is made up by the sum of 5,212*l*. proceeds of the issue of 5,000*l*. Baronial Stock, which has been received in the Office of Public Works.

† These services have terminated.

§ Certain counties passed presentments in favour of the Contractors amounting to 1,700*l*. per annum for seven years, subject to certain conditions.

§§ The difference between the Treasury contribution and the total estimated cost will be met by contributions from the Congested Districts Board in each case, except Liscannor and Kinvarra, the contributions in those instances being made by the Department of Agriculture and Galway County Council respectively. Small local contributions are applicable for Gortnasate and Portnoo.

** Revised estimates.

††. Certain credits not yet brought to account will, it is anticipated, reduce the expenditure on this work to 6,400*l*.

* This salary will be reconsidered on a vacancy.

† Including an allowance of £26 in lieu of fuel, light and apartments. This is personal to the present holder.

‡ Payments are occasionally made, from the sum provided under this sub-head, to salaried officers of Public Departments who are employed from time to time as Assistant Examiners, but, as the amounts paid and the recipients of them are continually varying, it is not possible to specify them in the Estimate. A complete list of the persons employed as Assistant Examiners is given in each Annual Report of the Commissioners.

§ Including a personal allowance of £50 per annum granted to one of the Junior Clerks.

** The status and salaries of these posts will be reconsidered on vacancies.

†† Receives also an Army pension of £57 16s. 8d. per annum.

ESTIMATED EXTRA RECEIPTS: CASH.

Fees, &c. (in addition to the amount appropriated in aid of the Vote, as above) -

1908-9.	1907-8.
£. 500	£. 572

A sum will be recoverable from the Local Loans Fund in respect of the expenses of loans administration by the various Departments concerned, which have been met out of voted moneys in 1907-8. The expenditure thus met on behalf of the Public Works Loan Commission under this and other Votes is estimated at 8,058*l*. In determining the aggregate claim to be made upon the Local Loans Fund abatement will be made of the amount of the fees paid into the Exchequer as Extra Receipts in connection with this Vote (60 & 61 Vict., cap. 51, sec. 4 (2)).

‡ The number of Porters and Boys employed varies much from time to time. They are employed by the week, as the necessities of the Service require, at rates varying according to age and length of service, from 8*s.* to 27*s.* per week. A good-conduct allowance of 2*s.* 6*d.* per week is given to a number not exceeding six, who have served not less than 20 years. Duty pay at the rate of 6*d.* per day is also allowed to the men employed with the carts, and to one man for weeding Parliamentary Papers.

§ See "Allowances."

By Sect. 82 of 19 & 20 Vict. c. 108, a Registrar was paid 120*l.* for the first 200 plaintiffs entered in a year in a Court; and 5*l.* for every 25 plaintiffs entered to 1,000, and then by 4*l.* till the plaintiffs reach 6,000; out of this salary the necessary clerks are paid by the Registrar. By Sect. 14 of 29 Vict. c. 14 (now 51 & 52 Vict. c. 43, s. 45), this scale was reduced, as regards Registrars thereafter appointed, to 100*l.* for the first 200 plaintiffs, and 4*l.* for every 25 plaintiffs up to 6,000, instead of 5*l.* and 4*l.*, as last stated. When the plaintiffs reach 6,000, a net salary of 650*l.* is paid, and 12*l.* 10*s.* for every additional 500 plaintiffs up to 8,000, making a maximum salary of 700*l.*, with an allowance for clerk-hire (51 & 52 Vict. c. 43, s. 45). The *net* remuneration of a Registrar as such, from all sources, must not exceed 1,400*l.* per annum.

By 51 & 52 Vict. c. 43, s. 37, on a vacancy occurring in the office of High Bailiff, the Registrar, if appointed subsequently to 1866, must perform the duties of High Bailiff, unless the Lord Chancellor, with the consent of the Treasury, otherwise determines. His remuneration is a sum equal to one-fifth of his *net* salary as Registrar, with an allowance for the service and execution of process.

Under Sect. 46 of 51 & 52 Vict. c. 43, the High Bailiffs appointed before 1870 in Courts with plaintiffs below 6,000, are paid partly by salaries and partly by allowances, which vary in amount according to circumstances. Those appointed since 1870 in Courts with less than 6,000 plaintiffs, and all those in Courts with more than 6,000, are paid salaries on fixed scales, with allowances for assistance in serving and executing process. Certain High Bailiffs act in more than one Court; but this arrangement is ceasing on vacancies.

* The remuneration payable for these services is a fixed proportion of the amount levied by Bankruptcy Fee Stamps in the cases dealt with in County Courts. The yield of these stamps is estimated at about £36,829. For scale, see House of Commons Paper, 148 of 1888, page 11.

† The remuneration payable for these services is a fixed proportion of the fees received under the Companies (Winding-up) Act in the cases dealt with in County Courts.

‡ Of which 496,542*l.* will be appropriated in aid of the Vote.

NOTES.

- C. 1.—Pensions are paid under provisions contained in former Codes. Superannuation allowances and disablement allowances are paid under the Elementary School Teachers (Superannuation) Act, 1898.
- C. 2.—The Annual Grants are made under the Code of Regulations for Public Elementary Schools, and consist mainly of Grants on account of average attendance. These Grants, in the case of ordinary Public Elementary Schools, are at the rate of 17s. for each unit of average attendance of infants, and 22s. for each unit of average attendance of other scholars. In the case of Higher Elementary Schools the Grants are at higher rates, from 30s. upwards.
- C. 3.—Section 1 (1) of the Elementary Education Act, 1891, provides that “after the commencement of this Act, there shall be paid, out of moneys provided by Parliament, and at such times and in such manner as may be determined by regulations of the Education Department, a grant (in this Act called a fee grant) in aid of the cost of elementary education in England and Wales, at the rate of ten shillings a year for each child of the number of children over three and under fifteen years of age in average attendance at any public elementary school in England and Wales (not being an evening school) the managers of which are willing to receive the same, and in which the Education Department are satisfied that the regulations as to fees are in accordance with the conditions in this Act.”
- C. 4.—Section 12 of the Elementary Education (Blind and Deaf Children) Act, 1893, provides that nothing in any Act of Parliament shall prevent the Education Department from giving aid from the parliamentary grant to a certified school in respect of education given to blind or deaf children to such amount and on such conditions as may be directed by or in pursuance of the minutes of the Education Department in force for the time being.
Section 7 of the Elementary Education (Defective and Epileptic Children) Act, 1899, makes similar provision in respect of education given to defective and epileptic children.
- C. 5.—Section 10 of the Education Act, 1902, provides that
“(1) In lieu of the Grants under the Voluntary Schools Act, 1897, and under section ninety-seven of the Elementary Education Act, 1870, as amended by the Elementary Education Act, 1897, there shall be annually paid to every local education authority, out of moneys provided by Parliament—
(a) a sum equal to four shillings per scholar; and
(b) an additional sum of three halfpence per scholar for every complete twopence per scholar by which the amount which would be produced by a penny rate on the area of the authority falls short of ten shillings a scholar; Provided that, in estimating the produce of a penny rate in the area of a local education authority not being a county borough, the rate shall be calculated upon the county rate basis, which, in cases where part only of a parish is situated in the area of the local education authority, shall be apportioned in such manner as the Board of Education think just.
But if in any year the total amount of parliamentary grants payable to a local education authority would make the amount payable out of other sources by that authority on account of their expenses under this Part of this Act less than the amount which would be produced by a rate of threepence in the pound, the parliamentary grants shall be decreased and the amount payable out of other sources shall be increased by a sum equal in each case to half the difference.
(2) For the purposes of this section the number of scholars shall be taken to be the number of scholars in average attendance, as computed by the Board of Education, in public elementary schools maintained by the authority.”
- D. 1.—The Grants are made under the Regulations for the Training of Teachers. The Annual Grants in respect of students resident in Training Colleges or Hostels are 53*l.* (men) and 38*l.* (women); the grant, in the case of a student residing in a Hostel, being divided between the Hostel and the Training College (Residential or Day) attended by the student. For students not so resident the Annual Grants are 38*l.* (men) and 33*l.* (women); the grant being divided between the College and the student.
- D. 2.—The Grants are made under the Regulations for the Training of Teachers. The Grants in aid of provision of Training Colleges and Hostels are limited to 75 per cent. of the capital expenditure. Grants are also made in aid of rent of temporary premises.
- E. 1.—Grants are made under the Regulations for Secondary Schools and the Regulations for the Preliminary Education of Elementary School Teachers. Grants are made to Secondary Schools which comply with the full requirements of the regulations at a rate of 5*l.* for each scholar between the ages of twelve and eighteen, and a rate of 2*l.* for each scholar between the ages of ten and twelve who was previously educated in a Public Elementary School. Similar grants are made to a certain number of Schools which do not satisfy the full requirements of the regulations, but were recognised for grant before the 1st of August, 1907; and in these cases the rate of grant on scholars between the ages of twelve and eighteen is 2*l.* 10*s.* instead of 5*l.* Small supplementary grants are also paid at rates assessed by the Board in aid of exceptionally small Schools, and certain Schools giving an exceptionally expensive course or carrying out special educational experiments. Additional grants are paid on account of certain scholars in Secondary Schools known as “bursars,” who intend to become Public Elementary School teachers, at a rate of 10*l.*, together with further amounts varying from 2*l.* 10*s.* to 5*l.* in aid of maintenance allowances for bursars to whom such allowances have been granted. Grants are also paid in aid of the instruction and training of pupil teachers at a rate of 7*l.*, or in a few cases 4*l.*, for pupil teachers in recognised pupil teacher centres, and of 4*l.* for pupils in preparatory classes attached to such centres. Where it is impossible to provide centres, grants at rates of from 2*l.* to 5*l.* assessed by the Board are made to local education authorities towards providing instruction for pupil teachers in other ways. Small grants are also made in aid of certain Leaving Certificate Examinations conducted by Universities for bursars and pupil teachers, and to County Councils in aid of the travelling and other expenses of bursars and pupil teachers. ☞
- F. 1.—The Grants are made under the Regulations for Technical Schools, Schools of Art, and other Schools and Classes for further education. For Technical Institutions, grants are at rates not exceeding 10*l.* per student for the first year's course, 12*l.* for the second year's course, and 15*l.* for the third and succeeding year's courses. For Day Technical Classes, the grant for each student does not exceed 40*s.*, except in certain cases in which it may be increased up to 60*s.* For Schools of Art, the grants are determined upon Returns and Reports as to the work of each School as a whole, *i.e.*, in both Day and Evening Classes. For other Schools and Classes (including Evening Schools and Art Classes), grants are calculated on the hours of instruction received by registered students at rates determined by the Board on consideration of the nature of the instruction and the circumstances and work of the School. This variable grant to a School may in some cases be replaced by a fixed annual grant, and in certain circumstances the Board may make a single inclusive grant to the Local Education Authority.

F.—Section 9 of the Education of Blind and Deaf-Mute Children (Scotland) Act, 1890, enables the Scotch Education Department to give aid from the Parliamentary grants to a school or institution in respect of education and industrial training given to blind or deaf-mute children, to such amount and on such conditions as may be directed by or in pursuance of the minutes of the Scotch Education Department in force for the time being.

G.—Section 67 of the Education (Scotland) Act, 1872, provides, *inter alia*, that “Where in any parish or burgh a school rate of not less than three pence in the pound on the rateable value of such parish or burgh shall be levied, and the whole produce of such rate is less than twenty pounds or than seven shillings and sixpence per child of the number of children in average attendance at the public schools provided by the school boards in such parish or burgh, such school board shall be entitled, in addition to the Parliamentary grant in aid of the public schools provided by them, to such further sum out of moneys provided by Parliament as will, together with the produce of the rate, make up the sum of twenty pounds or seven shillings and sixpence for each such child,” and Section 1 of the Education (Scotland) Act 1897, provides a further grant of 4d. per child for every complete 1d. by which a school rate exceeds 3d. in the pound.

L.—Under Article 118 of the Scotch Code, a limited number of pensions may be granted to certificated teachers who were employed in that capacity at the date (6th August 1872) of the passing of the Education (Scotland) Act, 1872. Under a Minute of the Committee of Council on Education, dated the 16th June 1884, it is provided that the limit imposed by Section 7 of Article 118 of the Scotch Code shall not affect the claims of teachers who were employed before August 1851.

O.—The Grants under this subhead are based on Chapter IX. (Articles 56 to 66) of the new “Regulations for the Preliminary Education, Training, and Certification of Teachers for various grades of Schools.” These grants are (a) at the rate of £8 per annum for each accepted Junior Student ; (b) a sum of £35 (men) and £30 (women) for each student in continuous training throughout the year, with an additional £15 (men) and £5 (women) in respect of any student resident in a residential college or in an approved hostel, and a further £3 per student in respect of adequate provision for instruction in Science. The grants under (b) are subject to certain limitations.

* It is sufficient to add five months at the increased rate, because payment is ordinarily a few weeks in arrear of the school year.

* Consuls are allowed to retain a proportion of the fees levied under the Orders in Council of 21st December, 1906, and Consular Officers at certain Ports in China are, moreover, allowed to retain a proportion of the fees levied under the Chinese Emigration Consolidation Ordinance, 1889, and the Chinese Emigration (Amendment) Ordinance, 1901.

A Commission of 2½ per cent. is paid to Consuls from the Vote for Mercantile Marine Services on the amount expended by them in relieving Distressed British Seamen, and 2½ per cent. on sums disbursed for Admiralty, War Office and India Office. A fee of 5s. is also paid to them from the same source for reporting cases of casualties to the Board of Trade. Consuls appointed before 1st October, 1906, at Ports where the system of Seamen's Money Orders is in operation are allowed to receive a commission on the amount of each Order issued. Consuls holding the appointment of Post Office Agent receive varying allowances for this service which are charged to Post Office Vote, Sub-Head D.

	£.	£.
GRANTS IN AID OF LOCAL REVENUES:		
A.—NORTHERN NIGERIA (GRANT IN AID):		
Grant in Aid of the Expenses of Administration, &c., of the Protectorate (including the West African frontier force) after allowing for contributions from Southern Nigeria -	290,000	295,000
B.—WEST INDIAN ISLANDS, STEAMER SUBSIDIES:		
The Contract for the line of Steamers between Canada and the West Indies has been again renewed for a period of four years from the 1st July, 1906. The Imperial contribution is continued at the same rate, namely at an annual charge of 13,500 <i>l.</i>		
The Contract for the line of Steamers between Jamaica and the United Kingdom will not expire until the 15th of January, 1911. Provision of 20,000 <i>l.</i> is included as in 1907-8.		
A Contract has been entered into with the Royal Mail Steam Packet Company for an improved Inter-Colonial Mail Service under which the Imperial contribution will amount to an annual charge of 12,500 <i>l.</i> for ten years.		
A balance is, however, expected to be available at the beginning of 1908-9 which, with the 43,000 <i>l.</i> now asked for, will suffice to meet the charge to be incurred under all three contracts in 1908-9 - - - - -	43,000	43,700
C.—WEST INDIAN ISLANDS (GRANTS IN AID OF BOTANIC STATIONS AND AGRICULTURAL INSTRUCTION AND EXPERIMENTS):		
This provision is sought for the purpose of assisting the Governments of Grenada, St. Vincent, St. Lucia, Antigua, St. Kitts-Nevis, Dominica, Montserrat, and the Virgin Islands in providing and in maintaining Botanic and Experiment Stations; for assisting the same Governments and those of Barbados, and the Leeward Islands in the experimental cultivation and improvement of the Sugarcane and other Agricultural Products, Stock, &c.; for assisting the Government of the Leewards in maintaining a Government Laboratory; for providing and maintaining Agricultural Schools at St. Vincent, St. Lucia, Dominica and St. Kitts-Nevis; and for contributing to the cost of teaching the principles of Agriculture in Public Elementary Schools and Colleges in the West Indies, including the cost of a Lecturer in Agriculture in Barbados - - -	6,550	10,073
<i>Note.</i> —The provision made under this Sub-head will be paid over to the respective Colonial Governments to meet their expenditure on such services. Certificates will be furnished to the Comptroller and Auditor General that the payments have been duly received by the Colonial Governments, and applied to the purposes specified; but no part of the sums so paid over in the financial year will be surrendered.

* One of the inspectors is in receipt of Salary as an Assistant Legal Commissioner to the Irish Land Commission, another is occasionally employed as an Examiner under the Civil Service Commission, and another is employed as Editor of a Calendar of State Papers in the Public Record Office.

† Four Clerks of the Record Office are occasionally engaged on the Calendar of Cecil MSS., or in indexing reports out of office hours.

‡ The Secretary is also in receipt of salary as an Assistant Keeper in the Public Record Office. (*See* Vote for that Department, Class II., 20.)

§ Five of the Supplementary Clerks in the Public Record Office are occasionally employed in copying and arranging documents and in reading proofs out of office hours.

EXTRACT FROM LETTER OF THE MASTER OF THE ROLLS, DATED DECEMBER, 1907.

Since the date of my last year's statement, the 17th Report of the Commissioners has been presented to His Majesty, and subsequently to Parliament, containing an account of the operations of the Commission during the three years which elapsed since the presentation of the preceding Report, and also abstracts of the contents of the Inspectors' reports on collections of manuscripts issued during the same period. As an Appendix to this Report were given (1) a complete list of the Reports issued by the Commissioners from the commencement of their operations, (2) a list showing the names of the owners of manuscripts whose collections had been thus dealt with, and (3) a list of the collections arranged according to county.

Reports of Inspectors issued during the past year have been on the manuscripts of

His Majesty the King : Stuart MSS., Vol. III.
The Duke of Portland, Vol. VIII.
The Earl of Ancaster.
The Dean and Chapter of Wells.
The Royal Institution, American MSS., Vol. III., and (included in Vol. IV. of Various Collections) :—
The Bishop of Salisbury.
The Bishop of Exeter.
The Dean and Chapter of Exeter.
The Earl of Leicester.
Sir William Clayton.
F. H. T. Jervoise, Esq.,
Major Money-Kyrle.
The City of Salisbury, and the
Boroughs of Orford and Aldeburgh.

Practically completed at press and on the point of publication are Reports on the manuscripts of

The Marquess of Bath, Vol. II.
The Marquess of Bath, Vol. III. (Prior Papers).
J. R. Fortescue, Esq., Vol. VI.

The following Reports are also in the press :—

Stuart Papers, Vol. IV.
Marquess of Ormonde, Vol. V.
Marquess of Salisbury, Part XII.
Earl of Egmont, Vol. II.
Lord Middleton.
American MSS. in the Royal Institution, Vol. IV.
Vols. V. and VI. of Reports on Various Collections, including Reports on the manuscripts of Miss Eyre-Matcham, of Newhouse, Salisbury; Mr. R. Mordaunt Hay, of Duns Castle, Berwickshire; Sir Archibald Edmonstone, of Duntreath Castle; Sir John Graham, and others.
Welsh MSS. in the British Museum.

Almost the whole of the time of one of the Inspectors has been occupied in revising former reports now out of print, for the purpose of re-issue, and payment for this has been made out of the sum allocated to the general purposes of the Commission, to the detriment of progress on work connected with new collections.

The Inspector in Scotland has continued his operations on the Laing MSS. in the University of Edinburgh and on the MSS. of Lord Polwarth at Merton House. One of the two volumes of reports on Various Collections mentioned above will be confined to Scottish Collections.

In Ireland steady progress has been made with the Report on the Ormonde MSS.

This Commission was appointed in May, 1898, and on the 12th July, 1901, they issued an Interim Report. On the 7th July, 1902, they issued a second Report, presenting Reports on certain chemical and bacteriological investigations in relation to sewage disposal, which had been made under the direction of the Commission.

On the 2nd March, 1903, the Commission presented a third Report dealing with trade effluents and the setting up of Rivers Boards and a Central Authority for the purpose of settling disputes between manufacturers and local authorities, and for the better protection of rivers and other waters.

On the 28th December, 1903, the Commission presented a fourth Report dealing with the dissemination of disease by means of contaminated shell-fish, and other evils, caused by the discharge of unpurified sewage and trade effluents into tidal waters. This Report contains the recommendations of the Commission for remedying these evils.

The Commission also presented, with this Report, Reports by their own officers on bacteriological examinations of shell-fish and sea-water, on land treatment of sewage, and on methods of chemical analysis, together with other reports.

The Commission hope to present a Report early in 1908 dealing with the relative merits of different systems of sewage disposal. The work which the Commission have already done on the purification of distillery refuse will probably also be dealt with in this Report.

An experimental investigation of the effect on streams of sewage effluents of varying degrees of purity has already been commenced for the purpose of enabling the Commission to formulate a series of standards, and in their final Report the Commission propose to deal with this matter, and also with the means available for purifying various kinds of trade effluents when not mixed with sewage.

This Commission was appointed by Royal Warrant, dated 31st August, 1901, to inquire, with respect to Tuberculosis, whether the disease in animals and man is the same; whether animals and man can be reciprocally infected with it; and under what conditions, if at all, the transmission of the disease from animals to man takes place.

In May, 1904, the Commission issued a short Interim Report.

In February, 1907, they issued a second Interim Report dealing fully with the work that had been done since the commencement. An Appendix to this Report, in four volumes, containing details of the experimental work, has now been issued.

The Commission was not appointed for any fixed period, and it is impossible to say definitely when it will be in a position to give a final answer to all the terms of the reference, but every endeavour will be made to terminate the work in the course of the year 1908-09.

This Committee was appointed in April, 1905, to enquire by means of experimental investigation and otherwise, into the Pathology and Etiology of Epizootic Abortion, and to consider whether any, and, if so, what preventive and remedial measures may with advantage be adopted with respect to that disease. Considerable progress has been made in the enquiry and in the experiments undertaken in connection with it.

The Board of Agriculture and Fisheries in their letter of 7th January, 1908, stated that the inquiry had become more complicated than was originally anticipated owing to the fact that the microbe of contagious abortion in sheep was found to be totally distinct from that to which the disease in cattle is attributed.

STATEMENT AS TO PROGRESS AND DURATION OF THE COMMISSION.

This Commission was appointed by Royal Warrant dated December 4th, 1905. Since their appointment the Commission have held 150 meetings, and examined about 400 witnesses. A large amount of evidence on the administration of the Poor Law has been submitted to them by official witnesses from the Local Government Board, by delegates from the various Poor Law associations, by representatives from various London unions, and by a number of Poor Law critics.

The Commission have also taken evidence in connection with charity and its possible uses as a substitute for poor relief, and also with regard to friendly and benefit societies as preventives of Pauperism. Special attention has been directed to the medical assistance of the poor generally, including not only the work of Poor Law Infirmarys, but of public hospitals and medical provident societies.

Special Investigators have been appointed to inquire into the effect of insanitary conditions and dangerous or unhealthy trades upon pauperism, and of outdoor relief upon wages; and to collect information as to the effects of unemployment or assistance given to the unemployed since 1886, as means of relieving distress outside the Poor Law.

A chronological analysis has been made of the legislative orders, circulars, and other documents relating to Poor Law administration, and issued from 1834 to 1876. In addition to investigating the official statistics of the Local Government Board, a special census has been taken of all paupers upon a given day, and this return, compiled from information obtained from every Poor Law authority, is now being summarized, and is on the point of being completed.

The Commission have also addressed, through the Foreign Office, a series of questions to British Embassies and Legations abroad as to the systems of poor relief in operation in their respective countries. Full replies have been received from most of the countries so interrogated. Similar questions have been addressed to the Colonies through the Colonial Office.

Other enquiries now proceeding, which it is hoped will be finished shortly, deal with (1) the results on the applicants of the refusal of out-relief by boards of guardians; (2) the question of boy labour; (3) the relations existing between charity and the Poor Law; (4) the methods and results of the present system of administering indoor and outdoor Poor Law medical relief; (5) the health, clothing, &c., of Poor Law children.

It is not considered probable that the work of the Commission will be completed before the end of the year 1908-9.

This Commission was appointed by Royal Warrant dated 5th March, 1906. Sixty-six meetings have been held and 201 witnesses examined. It is impossible to state with accuracy the probable duration of the Commission, as it depends in great measure upon the length of time necessary to complete certain engineering enquiries, but the Report is not expected to be ready before the early part of the year 1909.

MEMORANDUM BY THE SECRETARY, DATED 12TH FEBRUARY, 1908.

This Commission was appointed by Royal Warrant dated the 23rd May, 1906. The Commission has held meetings in Edinburgh and in London. An experiment in registration of title has during the past year been conducted in the Register of Sasines for the information of the Commissioners. The results will be subjected to a detailed and critical examination. Various legal bodies are now preparing themselves to appear before the Commission for examination with reference to the experiment.

It is proposed that the Commission should visit Dublin to examine and take evidence as to the system of registration in operation in Ireland. They may also require to make similar investigations on the Continent.

STATEMENT OF SECRETARY AS TO THE PROGRESS AND DURATION OF THE COMMISSION.

The Commission, which was appointed on the 6th June, 1906, has held fifty meetings and ninety-one witnesses have been examined. The first Report, dealing with the value of Rescue Apparatus for use in coal mines, was presented in June last together with the first volume of the Minutes of Evidence. A second volume of Minutes of Evidence will be issued shortly. In view of the wide scope of their terms of reference, the Commission are of opinion that their enquiries will extend over the whole of the period covered by the present Estimate.

MEMORANDUM BY THE SECRETARY OF THE COMMISSION.

The Commission was appointed by the Lord-Lieutenant's Warrant, dated 18th July, 1906, to inquire into the present working of Railways in Ireland, including Light Railways, and to report how far they afford, separately or in conjunction with other means of transit, adequate facilities for the cheap and rapid transport of goods and passengers within the Island and to Great Britain; what causes have retarded the expansion of traffic upon the Irish lines and their full utilisation for the development of the agricultural and industrial resources of the country; and, generally, by what methods the economical, efficient, and harmonious working of the Irish Railways can be best secured.

Up to December, 1907, there have been sixty-two public and fourteen private sittings of the Commissioners, and 202 witnesses have been examined, representing Public Departments, numerous public bodies in Ireland, tradesmen's Associations, Light Railway Companies and Committees of Management, &c.

It is hoped that the work of the Commission may be finished by the end of September, 1908.

This Commission was appointed on November 29th, 1906, to inquire into the operation of Shipping "Rings" or conferences generally, and more especially into the system of deferred rebates, and to report whether such operations have caused, or are likely to cause, injury to British or Colonial trade, and, if so, what remedial action, if any, should be taken by legislation or otherwise. The Commission sat once a week from February to July, 1907, and a Sub-Commission took evidence in South Africa in September and October. The Commission resumed its sittings in London on the 12th November. It is expected that the Commission will report about the end of 1908.

Notes—

B.—Balance of a Grant of 50,000*l.* for New Buildings.

C.—Instalment of a Grant of 70,000*l.* towards the cost of re-building necessitous National Schools. This would be supplemental to the provision for National Education Buildings under Class I., Vote 14, Public Works and Buildings, Ireland.

D.—Proposed annual charge to meet demands for an increased number of King's Scholars.

E¹.—Amount estimated by the Commissioners of National Education as necessary in 1908-9, consequent on the reduction from 60 to 50 in the average attendance upon which the Assistant Teachers can be recognised.

E².—Estimated expenditure in supplement to the provision under Subhead E of Public Education, Ireland, Estimate for providing Assistant Mistresses to all Schools with an average attendance of from 35 to 50.

F.—This Grant of 7,000*l.* is in substitution for the Grant known as the Science and Art Equivalent Grant, which was included in the Estimates for the Department of Agriculture and Technical Instruction (Class II., Vote 34), up to 31st March 1905. That Grant amounted to 3,500*l.* and is now supplemented by a similar amount to be devoted to new schemes instituted since the original allocation.

G.—Government Dredger. Upkeep, Depreciation and General Charges.

H.—This would be a first instalment of a Grant of 75,000*l.* toward this object.

I.—Sum Estimated to be required in 1908-9 to meet payments out of a Grant of 23,500*l.* towards the improvement of the line and its equipment.

J.—Sum Estimated to be required in 1908-9 to meet final payments from a Grant of 6,216*l.* for works of improvement at Portavogie.

K.—Sum Estimated to be required in 1908-9 to meet final payments from a Grant of 14,000*l.*

L.—Sum Estimated to be required in 1908-9 to meet final payments from a Grant of 22,000*l.*

M.—Remuneration to engineers, architects and others employed to make special reports on, or to prepare plans or superintend the execution of designs for, any of the schemes considered by the Government.

The expenditure out of the Ireland Development Grant Account will be audited as provided in the Ireland Development Grant Act, 1903, but any unexpended balance remaining on the account will not be liable to surrender at the close of the financial year.

* Payments, under Sections 38 & 39 of the Irish Land Act, 1903, of 20,000*l.* per annum to the Congested Districts Board, of 5,000*l.* per annum to Trinity College, Dublin, all included in Item A, are unconditional; but the payments in respect of items B. to M. in 1908-9 and the continuance in future years of such as are recurrent are subject to the provisions of Section 33 under which the balance of the Development Grant is part of the Guarantee Fund for Land Purchase.

** Surveyors of Taxes in Scotland receive remuneration from local sources. See Note under "Out-Door Department, Taxes."

** Collectors of Inland Revenue in Ireland engaged in the collection of Quit Rents, under 10 Geo. IV. c. 50, s. 89, are allowed by the Office of Woods 2 per centum on the amounts collected, but an arrangement has been made by which their Clerks receive one-third of the poundage thus paid, to remunerate them for their assistance in the business. 638l. 5s. 9d. was so paid in the year ended 31st March 1907.

** Certain Officers and Messengers act in some Districts as caretakers of offices, and in some instances occupy spare rooms, besides receiving a small allowance to cover actual cost of cleaning, &c.

** Under Sub-Head E. provision is made for allowances that may be paid to Officers of Inland Revenue, acting as Collectors of Taxes. In the year 1906-7 the payments amounted to 3,165l. 19s. 4d.

** Officers of the Out-Door Department, Excise, receive Rewards (Sub-Head Q.) for detection of evasions of the Revenue Laws.

† About 6,000l. of this amount, representing the value of Paper, Forms, and Parchment sold to the public, will be repaid by the Inland Revenue to the Stationery Office.

NOTES.

- B.—Balance of a Grant of 50,000*l.* for New Buildings.
- C.—Instalment of a Grant of 70,000*l.* towards the cost of rebuilding necessitous National Schools. This would be supplemental to the provision for National Education Buildings under Class I., Vote 14, Public Works and Buildings, Ireland.
- D.—Proposed annual charge to meet demands for an increased number of King's Scholars.
- E¹.—Amount estimated by the Commissioners of National Education as necessary in 1908-9, consequent on the reduction from 60 to 50 in the average attendance upon which the Assistant Teachers can be recognised.
- E².—Estimated expenditure in supplement to the provisions under Subhead E of Public Education, Ireland, Estimate for providing Assistant Mistresses to all Schools with an average attendance of from 35 to 50.
- F.—This Grant of 7,000*l.* is in substitution for the Grant known as the Science and Art Equivalent Grant, which was included in the Estimates for the Department of Agriculture and Technical Instruction (Class II., Vote 34), up to 31st March 1905. That Grant amounted to 3,500*l.*, and is now supplemented by a similar amount to be devoted to new schemes instituted since the original allocation.
- G.—Government Dredger. Upkeep, Depreciation and General Charges.
- H.—This would be a first instalment of a Grant of 75,000*l.* towards this object.
- I.—Sum estimated to be required in 1908-9 to meet payments out of a Grant of 23,500*l.* towards the improvement of the line and its equipment.
- J.—Sum estimated to be required in 1908-9 to meet final payments from a Grant of 6,216*l.* for works of improvement at Portavogie.
- K.—Sum estimated to be required in 1908-9 to meet payments from a Grant of 14,000*l.*
- L.—Sum estimated to be required in 1908-9 to meet final payments from a Grant of 22,000*l.*
- M.—Remuneration to engineers, architects and others employed to make special reports on, or to prepare plans or superintend the execution of designs for, any of the schemes considered by the Government.

The expenditure out of the Ireland Development Grant Account will be audited as provided in the Ireland Development Grant Act, 1903, but any unexpended balance remaining on the account will not be liable to surrender at the close of the financial year.

**APPENDIX to the ESTIMATE for CIVIL SERVICES, CLASS VI., Vote 1, SUPERANNUATION
and RETIRED ALLOWANCES, for the Year ending 31st March 1908.**

NOTE.—The figures in the column headed "service" represent the number of complete years actually served. In the calculation of pensions an addition has been made to such actual service, under Section 4 of the Superannuation Act of 1859, in the case of certain professional offices, and, under Section 2 of the Superannuation Act of 1876, in the case of persons who have served in unhealthy places, as defined under that Act.

POST OFFICE C.—PROVINCIAL ESTABLISHMENTS.

NOTES.

The numbers given under each Office are those of the authorized Force at the time of the preparation of the Estimates, but the classification is subject to re-consideration.

SUB-POSTMASTERS.

Sub-Postmasters are divided into two classes, viz.:—

(1) Salaried Sub-Postmasters—who receive a fixed salary, determined on the same principles as those which govern the salaries of Head Postmasters and covering their personal services only, the staff and accommodation being provided at the expense of the Department.

(2) Sub-Postmasters—whose remuneration, based on the business transacted, covers not only their personal services but also the provision of staff and accommodation. Payment for Telephone Exchange Working, Telephone Call Boxes, Private Boxes or Bags, and shelter of Rural Postmen is made in the form of Allowances.

SORTING CLERKS AND TELEGRAPHISTS.

The scales of both Male and Female Sorting Clerks and Telegraphists provide for a minimum payment for each age from 18 to 21 years.

These Officers are entitled, under certain conditions, to a special increase of pay, additional to the scale, of 3s. a week, for technical and manipulative qualifications.

LEARNERS.

		Minimum.	Maximum.
Males ...	...	6s.	18 years' pay of Sorting Clerks and Telegraphists.
Females ...	...	5s.	ditto. ditto.

ASSISTANTS.

The number of Assistants includes all Assistants regularly employed, whether on full duties or not, and whether during the whole year or during Season pressure only. The pay of Assistants regularly employed ranges, according to the class of office, from 5*d.* (at 19 years of age) to 7½*d.* an hour for Males, and from 4½*d.* (at 19 years of age) to 6½*d.* an hour for Females.

TELEPHONISTS.

The scales of Telephonists provide for a minimum payment for each age from 19 to 21 years, but the pay for 19 years is conditional upon the Officer having completed two years' unestablished service.

POSTMEN.

The scales of Postmen provide for a minimum payment for each age from 18 to 22 years.

Postmen are supplied with Uniform Clothing, and, under certain conditions, receive Good Conduct Stripe Allowances up to 6s. a week. They also receive a Boot Allowance of 21s. a year.
